Education

Chandigarh University

August 2021 - June 2025

Bachelor's of Engineering in Information Technology (CGPA currently of 8.10)

Punjab, India

St. Xavier's International School (CBSE)

March 2019 - March 2021

Intermediate with Computer Science (Percentage: 82%)

Jharkhand, India

Summary

As a soon-to-be graduate with a Bachelor's degree in Information Technology, I have a strong foundation in Python and Java programming, with a deep understanding of Data Structures and Algorithms within the Java environment. I am also Proficient in web development technologies including, HTML, CSS, and JavaScript, along with hands-on experience in various CSS and JS frameworks such as Bootstrap, Tailwind CSS, React JS and Next JS, I have demonstrated my ability to create static and dynamic websites.

I am now seeking opportunities to leverage my technical skills by learning emerging technologies particularly into Blockchain and Smart contracts. Additionally, I have also been an active contributor in some open source projects which further enhance my skills in problem solving and software development.

Projects

My Perfect Resume | *HTML, CSS, Bootstrap*

Live GitHub

- Developed a static website which helps the users in building their resume.
- Users can download the provided templates from the website and can edit it on their local computer.
